

# Leading Plastic Manufacturers in South Africa

Gundle Plastics Group is one of the largest flexible plastic film manufacturers in the Southern Hemisphere, manufacturing a large range of both printed and clear packaging materials. Our specialised divisions are located nationwide.

---

# About Us

Gundle Plastics Group (Pty) Ltd, also known as Gundle, was founded more than 50 years ago and today is a 100% Black-owned, BBE Level 1 and SABS ISO 9001:2015 accredited legal entity. The Gundle Group manufactures and distributes – through its nationwide branch network – flexible plastic packaging film for the consumer, chemical, industrial, food processing, agricultural, beverage and construction markets within a footprint that extends across South Africa and the Kingdom of eSwatini.

Gundle Plastics Group comprises of four manufacturing plants namely Gundle Germiston, Gundle API, Gunwoven Tongaat and Swazi Plastics as well as five branches across the country being Gundle Cape Town, Gundle Durban, Gundle Bloemfontein, Gundle Lowveld and Gundle Port Elizabeth, providing the group with the ability to service a customer from any part of the country.

The Gundle Group has been one of the market leading manufacturers in the industrial and Fast Moving Consumer Goods (FMCG) plastic packaging product segments since incorporation. This was built on the value proposition of a customer-based solution to all plastic packaging needs and requirements, with its primary products being produced using LDPE, LLDPE and HDPE raw material.

In line with the Group’s commitment to being environmentally responsible, the Gundle Group has its own on-site recycling facility. This has enabled the company to re-use 100% of the plastic waste generated in the manufacturing process, whilst offering a recycling solution to our clients. In addition, the Gundle group also has the capacity to supply and install dam, canal, tunnel, reservoir, and waste linings through its subsidiary Gundle Geosynthetics for the purpose of alleviating hazardous effects of an environmental nature. Gundle Geosynthetics also exports products and conducts installation projects into the rest of the African continent, including but not limited to, the Democratic Republic of Congo, Guinea, Namibia and Ghana.

# Customer Credentials

# Our Services

## Packaging
